### Credentials

Every participant entering the facility is required to have a credential. Credential options are: annual credential (hard card); single event \$85 each. Grand American members with a 2008 annual hard card may proceed into the facility without the need to stop at registration.

### Official Weigh-In and Fuel Capacity Check

First Day Tech: All Rolex Series cars must be presented for technical inspection with fuel cells emptied for official weigh-in and fuel capacity check before going on the track.

### Pit Vehicles

Team pit vehicles must be clearly identified with the team name and car number. All persons operating support vehicles must possess a valid motor vehicle operator's license. Pit vehicles or passenger cars are not allowed in the racing pit lane or on the circuit at any time. Any vehicle

(Preliminary and subject to change – 4/10/08)  
being operated at night must have working headlights. **The main paddock has a one-way traffic pattern, please observe.**

### Parking

- A. All team vehicles must be parked outside the paddock/garage area or as otherwise directed. Traffic and fire lanes must be kept open. Parking rules/signs will be enforced.
- B. Grand American will make all paddock/garage assignments. Teams will be parked by point standings, or as they arrive, in the next available space and parked accordingly.
- C. No hospitality units or motorhomes will be permitted in the paddock/garage area. They must be parked in the designated motorhome area. No dumping or leakage will be tolerated.

### Waste Disposal

Please familiarize yourself and your crewmembers with the Safety Kleen/waste disposal system in place at the speedway. Any questions should be brought to the attention of the Safety Kleen personnel immediately.

### Mandatory Drivers Briefings

All drivers must attend the pre-practice and pre-race driver briefings. Any drivers missing the briefings must consult with the Race Director before going on the circuit.

### Pre-Race Ceremonies/Grid Procedure

ALL engines in the garage, pits and grid must be shut off for pre-race ceremonies.

### Qualifying, Timing & Scoring

- A. All Rolex Series cars must qualify within the 110% average lap time rules.
  - **GT cars:** Each driver, during official practice or qualifying, must achieve a lap time no greater than 110% of the average lap times of the fastest three qualifiers of his class.
- B. Qualifying – cars must roll into pit lane on their qualifying tires. No tire changes are permitted before, during or after qualifying in pit lane. During qualifying cars may not download data from data gathering systems. Cars may not download data until they have been released to do so by an official.
- C. The Race Director may add additional cars to the field.
- D. The start/finish line on the front straight will be used to start and finish all races. Timing & scoring for practice, qualifying and the races will be done at the start/finish line on the front straight.

### Race Rules

- A. In cases of extreme hardship after qualifying has begun, the Race Director may approve a driver substitution, but no driver points will be awarded.
- B. All Rolex Series cars must make a mandatory pit stop prior to the 45 minute mark in the race.
- C. Withdrawal from an event; any competitor wishing to withdraw from an event must do so in writing to the Field Administrator.
- D. It is the responsibility of each team to advise a Pit Marshal of all impending pit stops.
- E. Pit assignments will be made by Grand-Am.
- F. Crash data recorders must be turned in to a Grand American official within 30 minutes after the end of the race or the retirement of the car. If this is not done, points may not be awarded.
- G. **No race engines may be started before 10 AM on Friday or all day on Sunday.**
